Hi Cynthia,

It has been really great working with you! Good luck in your transition. Unfortunately, for Southwest Marine the Port has not secured a new tenant yet and there aren't any current development plans. For Wilmington Marine Services, we are preparing the application for risk based cleanup and will send to EPA for review likely by the end of November if not sooner.

Regards,
Mark

CAUTION: External email.

Hello Mark,

I wanted to let you know that I am going to be transferring over to the Superfund Division here at EPA Region 9 in about two weeks. November 8 will be my last day in the RCRA Branch. Some of the projects that I have been working on have already been transitioned, and others, including various POLA sites, have yet to be assigned, but I think they will be in the upcoming days.

I do have some follow-up questions for you regarding some of the POLA sites:

- **Southwest Marine Shipyard** – we noticed that the SpaceX redevelopment that was planned for the site fell through earlier this year. Are there any new redevelopment plans for this site? If so, it would be great if I could get that information from you so that we can post it as a redevelopment success story on our website. Here are some examples of other success stories on our website: <https://www.epa.gov/pcbs/pacific-southwest-pcb-success-stories-redevelopment-northern-california>
- **Wilmington Marine Services** – Can you please provide a status update of TSCA activities at this site?

I will let you know about the new EPA PM soon. It was nice working with you Mark. Perhaps our paths will cross again in the future.

Best,
Cynthia
